Leslie,

Here is what i'll have found on the Kiewit Mine project. The mine is located in an M-G Zone but that zone no longer allows mining as a conditional use permit. I can find no CUP for the mine as the notice we received about it from your office was in 2012 and there is no record of any permit being issued or even applied for. All mining activities now must first receive a rezone to what is called the MG-EX (Mining, Quarry, Sand and Gravel Excavation) Zone which is Chapter 27 of our land use ordinance. They will then apply for a conditional use permit under that zoning. If someone has any other information to the contrary on this, I am open to reviewing that but I cannot find anything on it in our files. I hope this is helpful.

Leslie,

I have been in contact with Tooele County. We are trying to come up with a solution. I will keep you updated.
